Technical Data Sheet: Substances of Concern no. 910

Product group: Cardboard Gold / Silver

DoC / TDS : no.910

Article 5 of the Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC (PPWR) regarding restrictions on the content of per- and polyfluoroalkyl substances (PFAS), and heavy metals.

HEAVY METALS

The sum of heavy metals (the sum of concentration levels of lead, cadmium, mercury and hexavalent chromium) does not exceed 100 ppm by weight (100 mg/kg).

PFAS and other Persistent Organic Pollutants.

C.R.Verpakkingen herewith declares that no PFAS (PFOA and PFOS) components have been added deliberately to the board during manufacturing. In relation to the Danish ban on fluoridised substances in food contact materials, tests are performed and the results confirm that these substances have not been added deliberately.

Also other Persistent Organic Pollutants (POPs) listed by the Stockholm Convention are not added intentionally to produce paper or solid board grades. Our paper and solid boards do not contain any of these substances which could be used as flame retardants or for their greaseproof properties.

Therefore, we can state that all paper and Cardboard do **not contain PFAS** (and other POPs listed by the Stockholm Convention) unless at trace levels linked to the use recovered papers as our base material.

Printing Ink.

The types of printing ink used comply with the current EuPIA guidelines (CEPE guidelines) for types of printing ink.

Other SUBSTANCES

Regulation (EU) 2024/3190 of 19 December 2024 on the use of bisphenol A (BPA) and other bisphenols and bisphenol derivatives with harmonised classification for specific hazardous properties in certain materials and articles intended to come into contact with food

Phthalates

We hereby confirm that no Phthalates are intentionally added in the production of paperboard.

Bisphenol A and perfluorooctanic acids (PFOA).

We hereby confirm that no Bisphenol A and no Perfluoro-octanoic acids (PFOA) are intentionally added in the production of paperboard.

Benzophenone and 4 methyl-benxophenone.

We hereby confirm that no Benzophenone and 4-methyl-benxophenone are intentionally added in the production of board.

Formaldehyde

We hereby confirm that no Formaldehyde is intentionally added in the production of paperboard.

GMO

We hereby confirm that Genetically Modified Organisms (GMO) are not intentionally added in the production of paperboard.

Food allergens

We hereby confirm that, with reference to the EU Directive 1169/2011/EC, food allergens or products derived thereof are not intentionally added for the production of paperboard.

HAZARDOUS to ENVIRONMENT

The level of substances hazardous to environment in the board is less than 0,1% (EN 13428)

REACH

Hereby we confirms that our products **do not contain any of the Substances of Very High Concern** (SVHC) as per the latest Candidate List under Regulation (EC) No 1907/2006 (REACH). Additionally, our products are fully compliant with the latest EU regulations on the restriction of synthetic microparticles, including microplastics and microbeads.
